Maths – Unit 1

Lesson 1: Numbers to 20

1. Numbers from 0 to 20

0, 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, 13, 14, 15, 16, 17, 18, 19, 20

2. Ten Frames

- A ten frame has 10 spaces.

- 10 = one full ten frame

- For numbers greater than 10, we use two ten frames

Example:

$15 = 10 + 5$

3. Part-Whole Model

- The parts add together to make the whole.

$$10 + 2 = 12$$

Another example:

$$10 + 7 = 17$$

Remember:
Part + Part = Whole

Practice

A. Count the counters.

How many counters are there?

Answer: _____

B. Complete the part-whole models.

C. Complete the number line

The mystery number we are looking for is greater than 15.

It could be:

..., ..., ..., ... or ...
